

Please get me up-to-date meeting information so that I can keep the website updated. Please verify if your meetings in your area look correct on the regional website. Please remember that the helpline pulls data from the up-to-date meeting information. We have added a Find a Meeting button on front and center of the regional website. We are adding a password to protect the minutes that are displayed on the website under the documents section so the mins do not have to be redacted. Reminder, that we have a regional zoom account and you can join the zoom room at any time and request to be the host via a host key which I will provide at the bottom of this report as well as the meeting id and password for the zoom meeting. We have added separate area pages for I59 area and the Mid Ms area on to the regional website under the sub menu "our areas". With the usage that we are currently seeing for calls and text on the pheline, we are spending on average \$7 a month.

Meeting ID : 2012900828

Password : Region

Host key : 963305

Helpline number : 6012029393

Regional Website : mrsca.net
